Please rate the statement "the session will improve my competence":

Which topic in the Practice Staff Training was the most useful?

How satisfied were you with the session?

Do you have any other comments, questions, or any other feedback you would like to make us aware of?

- All the sessions were really worthwhile. I would have liked the printout of the presentations at the time to make notes. More sessions like this needed so additional members of my team can attend. Really interesting CQC presentation, short but very much to the point. Great venue, many thanks for the opportunity.
- these sessions are very useful and is off course a more practical way of learning
- The presentation on Safeguarding Adults had useful information but it could have been covered in half the time with fewer unnecessary examples. No need to speak to every bullet point on the presentation slide. ... very labourious.
- IG could have used a bit more if an introduction. It felt a bit high level I think it was based on the assumption the people in the room are all completing the IG Tool kit
- IG Governance and Adult Safeguarding were very useful to me and covered topics that I felt had not been touched on previously, however I feel that Child Safeguarding would have benefited from more scenarios and a examples of suitable pathways following an incident/ observation
- the child safeguarding and adult safeguarding training was useful but i have i did find the IG training extremely useful and informative
- A very informative training session which I really found to benefit me
- to break it up if you run another session maybe put Ig in between the two safeguarding training to keep the audience alert. IG was useful, didnt know there was a new IG lead and as I find out he is leaving???
- Do feel you need to do this before doing the online training otherwise it is very repetative. Feel some of it is very longwinded.
- Find it very helpfull.
- The training session was excellent in its content and presentation. Overall; I found it extremely useful and informative. can't wait to put it into practice. thank you
