

City and Hackney Guide for Carers, Families and Friends of People Living with Dementia

'This guide is for carers, families and friends of people living with dementia and is designed to put you in touch with the right people or organisation who can provide support or information if you have any concerns about the person you are caring for or are worried about your neighbour or someone you think might need care in the future'

Who is a Carer?

A carer is someone, who, without payment (unpaid), provides help and support to a partner, child, relative, friend or neighbour, who could not manage without their help. This could be due to age, physical or mental illness, addiction or disability.

A young carer is someone who is under the age of 18 and may be looking after his/her parents, brother or sister, grandparent or other relative who needs support

Awareness Raising (finding out more)

"I've heard about dementia, but I'm not sure what it is – or if it applies to my Mum. Where can I find out more?"
